²When Korbett, Landen, Wentworth, or Winstead is ordered with a painted finish, the center door panel will be constructed of Medium Density Fiberboard (MDF). MDF provides a smoother finish when painted and is more resistant to warping, expansion and contraction. Paints are not available on Avalon or Radford.

³Glazes are not available on Korbett, Teagan, or Winstead.

WOOD CHARACTERISTICS

MAPLE

- Subtle grain pattern
- Smooth, uniform appearance
- Color ranges from creamy white to pale red/brown within a panel
- May include "bird's eye" dots and mineral streaks

BIRCH

- Tight wood grain appearance
- Small, random tick marks
- Color may range from creamy white to pale reddish brown within a panel

RUSTIC BIRCH

- May contain a mix of pin holes, open knots, small cracks, bird pecks, mineral streaks and grain variations
- Color may range from creamy white to pale reddish brown within a panel

CHERRY

- Color ranges from tan blonde to deep brown within a panel
- Cherry darkens naturally as it ages, blending hues from golden yellow to deep red

OAK

- Very strong, open grain pattern
- Color may vary from salmon red to dark cinnamon within a panel
- Mineral deposits add color accents of green, yellow or black
- May include random worm holes, knots and wild-grain patterns

Since no two trees are alike in grain or texture, "nature's fingerprint" is never the same in two pieces of wood. Variations in color and grain are natural characteristics. Cabinets are stained to obtain as consistent a tone as possible, while preserving the interest and charm of the wood. These grain patterns lend to the distinctive beauty of each cabinet.

PURESTYLE™

- Displays the precision of a paint, the durability of a laminate and the sensibility of those who care about creating a better environment – inside and outside of their homes

THERMOFOIL

- Sleek surface
- Durable performance
- Carefree maintenance
- Color may change slightly over time, depending on environmental conditions
